

Life Verse Road Map

Since the day you were born God has had a plan for your life and He has been working it out through every twist and turn in the road of your journey. Even before you knew He existed, His promises, principles, commands have been there for you, guiding your steps or waiting to be heard. As you consider the spiritual signs and markers that you have encountered over the years, try recording them on a road map. These can be an ongoing source of encouragement and hope for you as you continue to follow your course. They will remind you that God has been, and will be there for you with His perfect plan.
